

EPICC

Enhancing Practice and Innovation Centre for Care

School of Health & Social Care

You are invited to visit our

Annual Enterprise Market Place

Wednesday 21st April between 11.00 and 3.00
Riverside Stadium, Middlesbrough

Join us as we showcase some of the many innovative and enterprising service improvement and practice development work in progress with our partner organisations in care.

Explore poster presentations and computer based demonstrations hosted by the people involved in the individual projects across all the Schools of the University.

This year we are also running 3 interactive workshops looking at developing leadership skills using drama (**Leading Roles**), using creative thinking tools for innovation (**Thinking Differently**) and exploring the Excellence in Practice Accreditation Scheme (**EPAS**) for your team or organisation.
(Places on workshops are strictly limited – pre booking is essential)

All presentations have a common underlying driver of improving the quality of provision and experience of care by changing how we do things and by promoting knowledge transfer between practice and practitioners and the University to develop and sustain the workforce of the future.

The Market Place is an informal event – drop in any time between 11 and 3 and stay as long as you like (**sandwich lunch available**) - talk to the stall holders about their projects, get ideas for your own, see how we can help.

Please let us know on the attached form if you will be attending the Market Place, and if you wish to register for a workshop and return it to

**EPICC, School of Health and Social Care, Centuria Building, Teesside University,
Middlesbrough, TS1 3BA,**
